OVERALL WORK PROGRAM FOR 2022/23

OVERVIEW

The FY 2022/23 Overall Work Program (OWP) documents the management, budgetary, and monitoring activities performed annually by Placer County Transportation Planning Agency (PCTPA). It is developed annually for Caltrans review and for approval by the PCTPA Board of Directors. This version of the OWP is the result of input from jurisdiction management, public works and planning officials, air district management, tribal governments, elected officials, and the general public. This document also provides an application format for Caltrans-administered funding programs, such as FHWA grants.

Twenty-four work elements are proposed that include specific objectives, budgets, and products. Several of these work elements are funded by a mixture of state, federal and local programs. The remaining are funded solely by TDA funds. This work program has a number of important characteristics:

1. The work program is action oriented. Its primary objective is to implement a programming and funding strategy that will address the mobility needs of Placer County residents, businesses, and visitors. Of key overall importance is the implementation of the Regional Transportation Plan, which serves as a guiding force for transportation improvements over the next 20 years, and its integration with SACOG's Metropolitan Transportation Plan (MTP) and Sustainable Communities Strategy (SCS) and other activities that support regional planning as covered under Work Element 20. Also included here are strategies and studies to address major transportation issues or hot spots including: (1) Placer Parkway; (2) I-80/SR 65 Interchange Improvements; (3) Highway 65 Widening; (4) Bikeway Planning; (5) Airport Planning; (6) Rail Program; (7) Regional Transportation Funding Strategy; (8) I-80 Auxiliary Lanes; (9) SR 49 Sidewalk Gap Closure; (10) Mobility Action Plan; (11) Transit Planning; and (12) Riego Road/Baseline Road Widening.
2. The work program reflects a pro-active approach to identifying future transportation project needs (e.g., TDA Administration, Capitol Corridor Rail, implementation of the Regional Transportation Plan, Regional Transportation Funding Strategy, Mobility Action Plan, Bikeway Planning).
3. The work program provides a greater emphasis on implementation of previously identified needs, including administration of the South Placer Regional Transportation Authority, project management and delivery, and leading the preconstruction of the I-80 Auxiliary Lanes, SR 49 Sidewalk Gap Closure, and Highway 65 Widening.
4. The work program includes a comprehensive effort to assist member jurisdictions in maintaining the high level of compliance with "use it or lose it" timely use of funds requirements and significant increases in reporting and monitoring required in the use of SB 1 funding.

5. The work program reflects a multimodal approach. Effort has been divided between planning for transit, highways, rail, aviation, pedestrian facilities, and bikeways.
6. The work program reflects the strong commitment to partnerships with other regional agencies in approaching interregional transportation needs.
7. The work program reflects the more pronounced need to participate in regional, state, and federal discussions regarding planning and funding transportation projects.
8. The work program will assure that PCTPA meets all state and federal planning requirements.
9. The work program funding allocation system meets TDA requirements.

The 2022/23 OWP is a product of cooperative efforts by PCTPA's member jurisdictions, including the Cities of Auburn, Colfax, Lincoln, Rocklin, and Roseville, the Town of Loomis, and Placer County, as well as other interested agencies. Equally important, the OWP is consistent with state and federal funding priorities.

INTRODUCTION

The mission of Placer County Transportation Planning Agency (PCTPA) is derived from its numerous state and local designations. The agency has been designated in state law as the Regional Transportation Planning Agency (RTPA) for Placer County. PCTPA is also the county's Congestion Management Agency (CMA), a statutorily designated member of the Capitol Corridor Joint Powers Authority (CCJPA), the designated Local Transportation Authority for transportation sales tax purposes, and the airport land use planning body and hearing board for Lincoln, Auburn, and Blue Canyon Airports. As part of their Joint Powers Agreement, PCTPA is the designated administrator for the South Placer Regional Transportation Authority and the Western Placer Consolidated Transportation Services Agency. Under an agreement with the Sacramento Area Council of Governments (SACOG), PCTPA also represents Placer jurisdictions in federal planning and programming issues. Since PCTPA has a Local Agency-State Agreement for federal aid projects, it is also eligible to administer federal projects.

Regional Transportation Planning Agency: PCTPA was created by Title 7.91 of the government code commencing with Section 67910 as the transportation planning agency for Placer County excluding Lake Tahoe. PCTPA has also been designated as the Regional Transportation Planning Agency (RTPA) for Placer County excluding Lake Tahoe in Section 29532.1(c) of the Government Code. Previous to this designation, PCTPA operated under the name of the Placer County Transportation Commission (PCTC) and operated as a local county transportation commission as specified under Section 29532(c) of the Government Code.

PCTPA has executed a memorandum of understanding and Master Fund Transfer Agreement with the State Department of Transportation on January 26, 1996, and updated in 2012 and 2014 identifying the

responsibilities of PCTPA as the RTPA and providing the administrative structure to implement these responsibilities.

As an RTPA with an urbanized population of over 50,000, PCTPA is responsible for preparing a Regional Transportation Plan (RTP) and Regional Transportation Improvement Program (RTIP) pursuant to Section 65080 of the Government Code.

Local Transportation Fund Administration: As the transportation planning agency, PCTPA allocates the Local Transportation Fund (LTF) to Placer County public transportation agencies pursuant to Section 29532 of the Government Code. The administration of these funds includes the establishment of a Social Services Transportation Advisory Council, the implementation of a citizen participation process appropriate for Placer County, annual recommendations for productivity improvements for transit operators, the performance of an annual fiscal audit of all LTF claimants, the implementation of a triennial performance audit of all LTF claimants, and the preparation of an annual unmet transit needs determination.

PCTPA receives an allocation of LTF funds for the administration of the LTF fund pursuant to Section 99233.1 of the Public Utilities Code and for transportation planning pursuant to Section 99233.2 of the Public Utilities Code and Section 6646 of the Government Code.

It is the responsibility of PCTPA to establish rules and regulations to provide for administration and allocation of the LTF and State Transit Assistance (STA) Funds in accordance with applicable sections of the Government Code, Public Utilities Code and Administrative Code included within the Transportation Development Act. It is also the responsibility of PCTPA to adhere to the applicable rules and regulations promulgated by the former Secretary of the Business, Transportation and Housing Agency (now the California State Transportation Agency) of the State of California as addressed in the Transportation Development Act, Title 3, Division 3, Chapter 2, Article II, Section 29535.

Under SB 45, signed by Governor Wilson in October 1997, Regional Transportation Planning Agencies (RTPAs) such as PCTPA are responsible for selection of projects, known as the Regional Transportation Improvement Program (RTIP), to be funded with the county's share of STIP funds. This power also comes with the responsibility of ensuring that the projects are on schedule and within budgetary constraints.

Federal Transportation Planning and Programming: PCTPA has executed memoranda of understanding (MOUs) with Caltrans and the Sacramento Council of Governments (SACOG) on April 11, 2001, with updates in 2005 and 2016, to govern federal transportation planning and programming in Placer County. This agreement integrates the PCTPA Regional Transportation Plan (RTP) and RTIP within the SACOG process.

Pursuant to these agreements, PCTPA receives a "fair share" allocation of both federal urbanized Surface Transportation Block Grant Program (STBGP) funds and Congestion Mitigation and Air Quality Improvement (CMAQ) funds. PCTPA nominates projects for these funds, and SACOG has agreed to select these nominated projects unless they fail to meet a federal requirements. SACOG cannot add projects to the PCTPA nominations.

PCTPA submits the state mandated RTP, developed pursuant to Section 65080.5 of the Government Code, to SACOG for inclusion in the federal Metropolitan Transportation Plan. As part of this agreement, SACOG conducts a federal air quality conformity test on the Placer County transportation program and plan.

PCTPA receives an allocation of federal STBGP funds for Placer County. Pursuant to Section 182.6 of the Streets and Highways Code, PCTPA can exchange the non-urbanized funds for State gas tax funds.

PCTPA allocates these exchange funds to jurisdiction projects based upon an MOU signed by all Placer jurisdictions dated November 2, 1994. The STBGP funding exchange formula and allocation was updated to reflect TEA 21, approved by the PCTPA Board on January 27, 1999, and is updated annually as appropriate to reflect the current Federal transportation bill.

Administration of Federal Aid Projects: PCTPA executed a Local Agency - State Agreement for Federal Aid Projects (Agreement 03-6158) with the State of California on March 2, 1994 and reauthorized on October 10, 2016. The execution of this agreement qualifies PCTPA to administer federally funded projects.

Passenger Rail Administration: Pursuant to Section 14076.2(b) of the Government Code, PCTPA is statutorily designated as a member of the Capitol Corridor Joint Powers Authority (CCJPA). Through an interagency agreement with Caltrans, the CCJPA administers the intercity rail service on the San Jose-Auburn railroad corridor.

Airport Land Use Commission: PCTPA was designated the Airport Land Use Commission (ALUC) for Placer County by the Board of Supervisors (December 17, 1996) and the Placer County City Selection Committee (October 24, 1996) pursuant to Section 21670.1(a)(b) of the Public Utilities Code. PCTPA acts as the hearing body for land use planning for Placer County airports. PCTPA is also responsible for the development of airport land use plans for Placer County airports as specified in Section 21674.7 of the Public Utilities Code.

Placer County, Auburn, and Lincoln each collect a fee on development projects by local ordinance in the area governed by the airport land use plan. This fee is passed on to PCTPA to help defray the cost of project review.

South Placer Regional Transportation Authority (SPRTA) Administration: PCTPA was designated as the administrator of the SPRTA under the terms of the Authority's Joint Powers Agreement dated January 22, 2002. As such, PCTPA provides staffing and management of the Authority, and is reimbursed for these services under a staffing agreement.

Local Transportation Authority (PCLTA): PCTPA was designated as the transportation sales tax authority for Placer County by the Placer County Board of Supervisors on August 22, 2006. In the event that a transportation sales tax is adopted by Placer's voters, PCTPA, acting as the PCLTA, would administer the sales tax expenditure plan.

Western Placer Consolidated Transportation Services Agency (WPCTSA) Administration:

PCTPA was designated as the administrator of the WPCTSA under the terms of the Agency's Joint Powers Agreement dated October 13, 2008. As such, PCTPA provides staffing and management of the Agency, and is reimbursed for these services under a staffing agreement.

PCTPA ORGANIZATION

The nine-member PCTPA Board consists of three members appointed by the Placer County Board of Supervisors and one member each from the incorporated cities of Auburn, Colfax, Lincoln, Loomis, Rocklin and Roseville.

PCTPA has provided for seven full-time staff members to implement the FY 2022/23 OWP. The organization of PCTPA is summarized in Figure 1.

The PCTPA reorganized its staffing structure and became a separate and independent agency on May 1, 1992. Previous to this reorganization, PCTPA was staffed by the Placer County Public Works Department.

GEOGRAPHIC LOCATION

PCTPA's jurisdiction includes a portion of northern California between the Sacramento Metropolitan area and the Nevada State line, as shown in Figure 2. In total, Placer County contains 1,506 square miles ranging in elevation from 160 feet to nearly 9,500 feet.

PCTPA represents the County, five incorporated cities, and one incorporated town located within the political boundary of Placer County. Transportation planning services are provided to the following incorporated cities with their corresponding January 1, 2021 populations: Auburn (14,433), Colfax (2,172), Lincoln (49,624), Loomis (6,808), Rocklin (70,469) and Roseville (146,875). Unincorporated Placer County, excluding the Tahoe Basin portion of Placer County, has a population of 103,151. These population estimates are based upon information provided by the California Department of Finance (DOF) in their 2021 DOF E-1 Report as updated in May 2021.

AGENCY COORDINATION

PCTPA coordinates regional transportation planning activities with other public agencies including Sacramento Area Council of Governments (SACOG), Tahoe Regional Planning Agency (TRPA), State Department of Transportation (Caltrans), California Transportation Commission (CTC), adjacent RTPAs (Nevada County Transportation Commission, El Dorado County Transportation Commission), United Auburn Indian Community (UAIC) of the Auburn Rancheria, and other interested groups.

United Auburn Indian Community: UAIC is a federally recognized tribe, as such PCTPA conducted government-to-government coordination and consultation include the following:

- In person meeting, including PCTPA, SACOG, and UAIC, occurred during the early development of both the MTP/SCS and RTP
- In person meetings and email correspondence, including PCTPA, Caltrans, and UAIC, occurred for cultural coordination as part of the I-80/SR 65 Interchange Phase 1 Improvements in Roseville and Rocklin
- In person meeting and email correspondence, including PCTPA, Caltrans, and UAIC, occurred for cultural coordination as part of the State Route 49 Sidewalk Gap Closure Project in Auburn

- In person meeting to develop partnership between PCTPA and UAIC for the regional transportation funding strategy

COMMUNITY PARTICIPATION

In an ongoing effort to encourage participation of all communities in the transportation planning process, and in compliance with Title VI, the PCTPA solicits input through various policy, technical, and public forums. Outreach to the United Auburn Indian Community is specifically included.

PCTPA conducts public hearings regarding the development and adoption of major planning documents such as the Regional Transportation Plan, the Regional Transportation Improvement Program, and the annual unmet needs hearing. Additional public hearings and workshops are held for individual work projects as indicated.

The community information and participation effort has been enhanced by expansion of the agency web page and social media on the Internet, to provide citizens with greater access to agency documents and activities, establishment of a speaker's bureau, and greater emphasis on working with local media outlets. See Work Element 14: Communications and Outreach and individual project work elements for further details.

WORK ELEMENT 12 INTERGOVERNMENTAL COORDINATION

PURPOSE: To share information and coordinate with outside agencies and jurisdictions on matters pertinent to the development of effective transportation plans and projects.

BACKGROUND:

PCTPA works very closely and continuously with numerous outside agencies as a way of coordinating our planning efforts. In particular, we work with the Sacramento Area Council of Governments (SACOG), as the Metropolitan Planning Organization (MPO) for our area, to implement Federal and State transportation programs. While many of our interactions are specified under our Memorandum of Understanding, regional interests and overlapping jurisdictions provide additional need for close coordination. On a larger regional basis, PCTPA works closely with the Tahoe Regional Planning Agency (TRPA) and Nevada County Transportation Commission (NCTC) on connections both to and within the Truckee/North Tahoe area. On a statewide basis, we work closely to coordinate and share information with the California Transportation Commission (CTC), as well as other regional agencies through groups such as the Regional Transportation Planning Agency (RTPA) Group, Rural Counties Task Force (RCTF), and California Association of Councils of Government (CALCOG). In addition, PCTPA works in close coordination with the Placer County Air Pollution Control District (APCD) in regards to transportation/air quality issues.

Given PCTPA's somewhat unique mix of rural and urban perspective, expertise in transportation planning and funding, and proximity to Sacramento, PCTPA staff is often asked to advise or participate on advisory committees and ad-hoc efforts on a variety of transportation planning issues. As many of these efforts spring up in response to current situations, it's impossible to anticipate every instance that might occur throughout a given year. These can range from providing input on multi-jurisdiction corridor plans to strategic planning on improving mobility in a particular geographic area to participating on a task force to develop guidelines to implement the Governor and/or State Legislature's latest transportation initiative.

WORK PROGRAM:

- Participate in ad hoc and standing Caltrans policy and technical advisory committees, such as the Regional-Caltrans Coordinating Group **Bi-monthly/as scheduled**
- Participate in ad hoc and standing SACOG policy and technical advisory committees, such as Regional Planning Partnership and Transportation Committee **Monthly/as scheduled**

WORK ELEMENT 13 INTERGOVERNMENTAL ADVOCACY

PURPOSE: To represent Agency needs and priorities with outside agencies and jurisdictions on matters pertinent to transportation planning, programming, and funding.

BACKGROUND: The actions of State and Federal legislative bodies and regulatory agencies have a huge impact on the effectiveness of PCTPA's efforts to plan, program, fund, and implement transportation improvements. Legislative bodies and regulatory administrators often propose policies to improve one issue while creating major challenges elsewhere. It is therefore critical to represent the Agency's positions with these entities, make sure they understand the impacts, and do our best to ensure that their actions and activities reflect PCTPA's needs. Staff efforts are augmented by our Federal and State advocates, who advise and advocate on our behalf, as well as teaming with other entities with like interests, all with an eye to maximize the effectiveness of our efforts.

In FY 2016/17, the Board directed staff to explore the introduction of legislation to allow Placer to subdivide the county into transportation sales tax districts. Assembly Bill 1413 to allow sales tax districts in Placer, San Diego, and Solano Counties was signed by the Governor in October 2019.

WORK ELEMENT 14 COMMUNICATIONS AND OUTREACH

PURPOSE: To inform the public of the Agency's activities and issues of interest, and to gather effective public input

BACKGROUND: As the transportation system in California and in Placer County faces more and greater challenges, it is even more critical that the public be aware and informed about transportation issues, the role of PCTPA, and the activities we are doing now and planning for the future. This awareness translates to a higher level of public discussion/participation and informed approaches to dealing with transportation issues.

As the Regional Transportation Planning Agency (RTPA) for Placer County, PCTPA serves as a clearinghouse of information about transportation issues as they may affect citizens, businesses, and travelers. Many of those issues are in regards to future plans, while others may concern existing conditions. This work element is intended to cover all of the day-to-day communications activities and public/stakeholder outreach functions of the Agency and governing Board.

This work element covers the more general public outreach and input that is both important and required by federal and/or state regulations for administering transportation planning and project/program/service delivery activities. Outreach for specific efforts, including transit and rail, I-80/SR 65 Interchange, SR 65 Widening, I-80 Auxiliary Lanes, SR 49 Sidewalks Gap Closure, and the Regional Transportation Funding Strategy are covered under those work elements. Advocacy and lobbying, including policy advocacy outreach or requests for project funding, are covered under Work Element 13: Intergovernmental Advocacy.

WORK ELEMENT 20

SACOG/MPO PLANNING INTEGRATION

PURPOSE: To update the Placer County Regional Transportation Plan and coordinate with SACOG on the development of the Metropolitan Transportation Program (MTP) and Sustainable Communities Strategies (SCS).

BACKGROUND: Regional Transportation Planning Agencies (RTPAs) are required to update their RTPs every five years. The current Placer County Regional Transportation Plan (RTP) 2040 was adopted by the Board in December 2019. The RTP provides the long-range, comprehensive direction for transportation improvements within Placer County. The RTP includes regional transportation goals, objectives, and policies that guide the development of a balanced, multi-modal transportation system. The RTP also includes a financial analysis that forecasts transportation funding available over the twenty year horizon of the plan.

PCTPA actively participated with SACOG and our other regional partners in the update of the six-county Metropolitan Transportation Plan (MTP), which was adopted in November 18, 2019. Technical reasons for this joint effort include reference to the PCTPA/SACOG Memorandum of Understanding (MOU) dated April 11, 2001, which states SACOG provides air quality conformity and other federal requirements for the RTP. The next iteration of the SACOG MTP is anticipated for adoption in early 2024.

The SACOG MTP also meets all the latest requirements of SB375 and AB32, which includes the consideration of the integration of land use, transportation, and air quality. Moreover, the plan also includes the required Sustainable Communities Strategies to implement these plans. The collaborative approach provided by the coalition of transportation partners throughout the six-county region means improved interregional coordination, as well as ensuring that Placer projects and priorities are integrated into a cohesive regional plan as provided in the MOU.

Staff kicked off the development of the 2050 RTP in FY 2022/23 with a presentation to the PCTPA Board in February [2022](#). Although adoption of the plan is not required until December 2024, staff plans to reevaluate the structure and contents of the plan to emphasize linkages between policies and outcomes and to make it more user friendly. The 2050 RTP will also be developed in coordination and on a slightly delayed schedule with the SACOG MTP/SCS, being referred to as the 2024 Blueprint. This approach will ensure consistency between the planning efforts due to the complexity and dynamic planning environment in the Sacramento Region. The parallel schedules of the two efforts creates an opportunity to maximize efficiencies and effectiveness in addressing Placer's needs and goals. The technical coordination with SACOG will consist of the following activities:

- Model Development and Support – PCTPA (SACOG Project #SAC108)
 - This project includes SACOG staff time for Placer County-related travel demand and transportation modeling, data assembly, analysis, and monitoring work.
- Data Development, Monitoring, and Support – PCTPA (SACOG Project #SAC119)

WORK ELEMENT 20 (continued)

SACOG/MPO PLANNING INTEGRATION

- As part of its role in analyzing the combined effects of land use patterns and phased investments in transportation infrastructure and services, SACOG must establish consistent, comprehensive and complete datasets quantifying and describing land use, transportation, and demographic characteristics for Placer County.
- MTP/SCS Update – PCTPA (SACOG Project #SAC127)
 - SACOG is required to update the long-range, six county Metropolitan Transportation Plan/Sustainable Communities Strategy at least every four years. The next update of the plan is scheduled to be completed ~~February~~ in 2024. ~~In~~ During FY 2022/23 SACOG in partnership with federal, state, and local partners, will be developing land use and transportation scenarios (called pathways) and holding a robust public input process. These pathways will help to develop a preferred project list that will serve as the final project list for both SACOG’s 2024 Blueprint and PCTPA’s 2050 RTP.
- Performance-Based Planning and Programming – PCTPA (SACOG Project #SAC130)
 - As required under the FAST Act, and/or any other subsequent regulations implemented under the new Infrastructure Investment and Jobs Act (IIJA), SACOG is required to update and report on progress toward achieving performance measures targets related to safety, air pollution emissions, infrastructure condition, freight movement, congestion, and reliability. Activities will include inclusion of Placer County data into the metrics and updates to the Project Performance Assessment tool created by SACOG.

WESTERN PLACER CONSOLIDATED TRANSPORTATION SERVICES AGENCY (CTSA) ADMINISTRATION

PURPOSE: To provide staffing and administrative support for the Western Placer Consolidated Transportation Services Agency (CTSA) Joint Powers Authority (JPA).

BACKGROUND: The Consolidated Transportation Service Agency (CTSA) designation was created by California law as a means of strengthening and coordinating the social service transportation programs of nonprofit organizations and, where appropriate, to serve as the focus for consolidation of functional elements of these programs, including the provision of transportation services. For Placer County, the CTSA designation was held by Pride Industries from 1997 until they resigned effective December 31, 2007.

When no other suitable candidate was found to undertake the role, the seven jurisdictions of Placer County formed a Joint Powers Authority to take on the role of the CTSA. The result was the Western Placer CTSA JPA, which was created on October 13, 2008 by Placer County and the cities of Auburn, Colfax, Lincoln, Rocklin, and Roseville, and the Town of Loomis to provide CTSA services. Under the terms of the JPA, PCTPA provides administrative services for the JPA.

WORK ELEMENT 24 TRANSIT PLANNING

PURPOSE: To implement enhanced transit service for south Placer County.

BACKGROUND:

PCTPA actively works with its member agencies and transit operators to improve the public transit system in Placer County. With an increased focus on alternatives to driving alone at the state and federal level, PCTPA's work to expand travel options in Placer County has become a larger part of the agency's work. The COVID-19 epidemic only exacerbated the need for Placer County to rethink how it provides transit services. This Work Element includes general transit planning and coordination, as well as the implementation of key regional transit services, such as the South Placer Transit Project and the Placer County-Roseville-Auburn microtransit pilot program. The South Placer Transit Project would connect South Placer County to the high-frequency Sacramento Light Rail transit system and provide Lincoln residents an efficient alternative to driving and increased congestion and the continued need for enhanced transit services in the Highway 65 Corridor. The new route would begin and end with a stop in the City of Lincoln, continue along the Highway 65 corridor with stops at Sutter Roseville Medical Center ~~and~~, Kaiser Permanente Roseville, and the Roseville Galleria shopping center, and terminate at the Watt/I-80 light rail station in Sacramento County. Sacramento Regional Transit's light rail service would then enable passengers to travel to and from downtown Sacramento, the Railyards and other key destinations within Sacramento County. The microtransit pilot program will utilize mobile software technology to support new, on-demand transit service in areas of Placer County, Roseville, and Auburn that may currently be underserved and/or underutilized with existing public transit options.

WORK PROGRAM:

- Work with Roseville Transit, Placer County Transit, Auburn Transit and WPCTSA to reinvent transit service to address impacts of COVID-19 and the ongoing decline in ridership for non-commuter service prior to COVID-19 **Ongoing**
- Work closely with consultant team, City of Roseville, Placer County, and other pertinent parties to implement the South Placer Transit Project **Ongoing**
- Work closely with City of Roseville, Placer County, City of Auburn, and other stakeholders to implement the microtransit pilot program **Ongoing**
- Provide support for federal and state grant applications for transit capital and operating funding **Ongoing**
- Work with SACOG, Caltrans, the City of Roseville, and Placer County to ensure inclusion of the South Placer Transit Project in their planning and funding efforts **Ongoing**

WORK ELEMENT 27

AIRPORT LAND USE COMMISSION/AVIATION PLANNING

PURPOSE: To administer the Placer County Airport Land Use Commission (ALUC), Airport Land Use Comprehensive Plan (ALUCP), and related aviation activities.

BACKGROUND: PCTPA's aviation planning activities include administration of the Airport Land Use Commission (ALUC) and providing technical assistance. Placer County has three public-use airports at Auburn, Lincoln, and Blue Canyon (an emergency airstrip).

PCTPA coordinates with the California Department of Transportation, Division of Aeronautics for ALUC planning activities and funding. As the designated Airport Land Use Commission (ALUC) for Placer County, PCTPA is responsible for defining planning boundaries and setting standards for compatible land uses surrounding airports. ALUCs have two primary functions under State law. The first is the adoption of land use standards that minimize the public's exposure to safety hazards and excessive levels of noise. The second is to prevent the encroachment of incompatible land uses around public-use airports. This involves review of land use proposals near airports as delineated in the Airport Land Use Compatibility Plan. This analysis, particularly for more complex mandatory reviews, may require the use of consultant services.

While the Truckee- Tahoe Airport is predominantly in Nevada County, part of the runways and overflight zones are in Placer County. Under agreement reached in 2010, the ALUC designation for the Truckee-Tahoe Airport lies with the Nevada County Transportation Commission (NCTC), augmented by a representative appointed by the Placer County Board of Supervisors so that Placer interests are represented appropriately.

A key task for the ALUC is coordinating implementation of the Airport Lane Use Compatibility Plan (ALUCP) with the cities of Auburn and Lincoln and Placer County.

WORK PROGRAM:

- Participate in interagency aviation meetings **As nNeeded**
- Review development projects for consistency with ALUCP **Ongoing As needed**

WORK ELEMENT 33 BIKEWAY PLANNING

PURPOSE: To provide ongoing bicycle planning, safety education and coordination services.

BACKGROUND: In FY 2010/11, PCTPA completed the North Tahoe-Truckee Resort Triangle Bicycle and Trail Plan with the Tahoe Regional Planning Agency (TRPA), Nevada County Transportation Commission (NCTC), and the North Lake Tahoe Resort Association (NLTRA) in support of the NLTRA's goal to become designated as a Bicycle Friendly Community, which has now been achieved. The City of Roseville also achieved a Bicycle Friendly Community status in 2017. In FY 2016/17 and 2017/18, staff led an update to the 2002 Regional Bikeway Plan for the unincorporated communities in western Placer County, which was adopted in June 2019. The Regional Bikeway Plan provided a new vision for bikeways within the rural communities, between incorporated cities, and the touring routes enjoyed by enthusiasts with an eye toward identifying projects to compete in the statewide Active Transportation Program.

PCTPA staff continues to coordinate with local agencies on the implementation of the 2019 Regional Bikeway Plan for the unincorporated areas of the county by pursuing grants as well as the local bikeway plans to secure grant funding for feasibility studies and construction. PCTPA will continue to update, print, and distribute the Countywide Bikeway Map as it has annually since 2010. Staff will also continue to monitor bicycle planning and implementation needs, and coordinate with SACOG, Caltrans, and jurisdictions on bicycle issues.

WORK PROGRAM:

- Coordinate efforts with PCTPA's Bicycle Advisory Committee and other stakeholders, including SACOG and Caltrans **Ongoing**
- Coordinate with local jurisdictions on bicycle funding opportunities and grant programs and enhance coordination efforts with Caltrans to identify and program complete streets enhancements to the state highway system in Placer County **Ongoing**

WORK ELEMENT 35

RAIL PROGRAM

PURPOSE: To support and enhance the success of Capitol Corridor rail service in Placer County, to administer the agency's passenger rail, freight rail and rail grade crossing programs, and to maximize rail funding available to local jurisdictions.

BACKGROUND: PCTPA's rail program includes rail system planning, program administration and financing, and technical assistance. PCTPA's top rail priority is intercity rail and therefore is an active member of the Capitol Corridor Joint Powers Authority (CCJPA) and its subcommittees. Intercity rail requires extensive work and coordination with Amtrak, Union Pacific, Caltrans, -the CCJPA, and local jurisdictions. PCTPA also provides a critical network of support for the service, working with local jurisdictions and CCJPA staff to provide stations, platforms, connector buses, and other amenities required for the ongoing success of the rail service. The State provides operating funds to CCJPA under the provisions of interagency and fund transfer agreements.

The long-standing focus of Placer's rail program is to enhance rail service to Placer County. One manifestation of that priority has been work to extend passenger service to Reno. A Reno Rail Conceptual Plan was completed in FY 2004/05, and efforts had been on hold. However in 2021, the Tahoe Mobility Forum raised the possibility of looking at this issue again. Caltrans Division of Rail and Mass Transit (DRMT) will be funding the Sacramento to Reno Service Planning Study. PCTPA will be working closely with Caltrans DRMT and performing the first/last mile analysis and a survey of potential user interest in the potential service to Tahoe and Reno.

The rail passenger capacity improvement discussion has focused on improvements to the UP rail "bottleneck" between Sacramento and Roseville. In November 2015, the CCJPA adopted the environmental document for the Third Track capacity improvements, with the focus of providing the Capitol Corridor 10 round trips daily to Roseville. The next steps in this effort, to design and construct the Third Track facilities, entails extensive coordination to build agreements with key parties, including CCJPA, PCTPA, UP, and the City of Roseville.

While the footprint of the High Speed Rail line in California is not planned to extend to Placer County, the CCJPA will be acting as a key feeder line. For that reason, PCTPA staff is also working closely with CCJPA to ensure that Placer interests are best served as the High Speed Rail line moves forward.

Finally, PCTPA staff represents Placer County's jurisdictions before state, federal and regional rail agencies, as well as the CTC. PCTPA also assists jurisdictions with coordination with Caltrans, Union Pacific and the PUC to improve at-grade crossings.

Participate in CCJPA and other interagency rail committees and meetings **Monthly**

- Coordinate with state and federal agencies and legislators to ensure and enhance the long-term viability of rail service in Placer County **Ongoing**

PLACER PARKWAY (*Multi-year project*)

PURPOSE: To support the completion of the federal and state environmental document that will provide construction level clearance for a future Placer Parkway – a new roadway linking State Route (SR) 70/99 in Sutter County and SR 65 in Placer County.

BACKGROUND: The Placer Parkway is cited in the Placer County General Plan, PCTPA’s Regional Transportation Plan, and the SACOG Metropolitan Transportation Plan. The Placer Parkway would offer an alternative travel corridor for the fast growing areas in western Placer County and southern Sutter County.

The Tier 1 environmental document, which identified a 500’ to 1000’ wide corridor for acquisition, was adopted by the South Placer Regional Transportation Authority (SPRTA) in December 2009. The subsequent Tier 2 environmental document effort is being led by Placer County and will analyze design and construction impacts of roadway alignments within the selected corridor.

PCTPA, both as a planning agency and as staff for SPRTA, has led the development of this project since the Placer Parkway Conceptual Plan was started in 1998. As the project moves through the construction level environmental process, the institutional knowledge and background acquired in efforts to date will be needed to assist County staff in moving the project forward. Staff will also be participating as development efforts begin to take shape in the Western Placer area to ensure that the ongoing viability of the Placer Parkway project and that adopted actions and agreements are incorporated into the planning process.

WORK PROGRAM:

- Evaluate a proposed shift in the identified corridor and provide environmental review of the proposed corridor if necessary. **July 2022 – June 2023**
- Assist Placer County and other partners in developing and obtaining a construction level environmental clearances. **Ongoing**
- Participate with Placer County on Project Development Team (PDT) for Placer Parkway Phase 1 **Per County schedule**

I-80/SR 65 INTERCHANGE IMPROVEMENTS *(Multi-year project)*

PURPOSE: To develop a shelf-ready phased improvement program for the I-80/SR 65 Interchange, including environmental clearances, design, and right-of-way. Caltrans pays for and provides staff support through Expenditure Authorization 03-0H26U.

BACKGROUND: The I-80/SR 65 Interchange was constructed in the mid-1980's as part of the Roseville Bypass project on SR 65 in the Roseville/Rocklin area of South Placer County. The facility is now experiencing operational problems caused by high peak traffic volumes and less efficient geometry of the loop ramp, which cause downstream backups on I-80 and SR 65.

A project initiation document (PID) for the I-80/SR 65 Interchange Improvements was completed in 2009 by Caltrans District 3. This document provided planning level alignment alternatives, as well as scope, schedule, and cost estimates. The interchange improvements received both federal and state environmental clearance in September 2016.

Phase 1 of the I-80/SR 65 interchange completed construction in September 2019, including a third lane on northbound Highway 65 from Interstate 80 to Pleasant Grove Boulevard. Caltrans continues to pursue resolution of construction related claims so the project has not been closed out.

The work for FY 2022/23 is expected to 1) focus on coordination with Caltrans to close out construction of the first phase (Phase 1) of the interchange on northbound SR 65 from I-80 to Pleasant Grove Boulevard, as well as 2) pursuing funding for construction of Phase 2 initiate a study for truck charging at the interchange in order to make to project more competitive for grant funding.

HIGHWAY 65 WIDENING *(Multi-year project)*

PURPOSE: To develop a shelf-ready improvement program for Highway 65 between I-80 and Lincoln Boulevard, including environmental clearance, design, and right-of-way. Caltrans pays for and provides staff support through Expenditure Authorization 03-1FI71.

BACKGROUND: Highway 65 between Roseville and Marysville was designated as part of the state's highway system in the 1960's. The Highway 65 Roseville Bypass, constructed in the late 1980's, realigned the highway through downtown Roseville from Washington Boulevard to I-80. The facility is now experiencing operational problems caused by high peak traffic volumes, which cause backups on both northbound and southbound Highway 65 in South Placer County.

A project initiation document (PID) for the Highway 65 Widening was completed by Caltrans District 3 in January 2013. This document provides planning level alternatives, as well as scope, schedule, and cost estimates. The PCTPA board approved funding to complete Project Approval and Environmental Document (PA&ED) phase, which was completed in FY 2017/18.

The next phase of the project is the design of Phase 1 improvements from Blue Oaks Boulevard to Galleria Blvd/Stanford Ranch Rd, which is being led by PCTPA. The work in FY 2020/21 continued the Phase 1 work to 95 percent design in September 2021. However, with the transportation funding strategy being delayed to 2022, the design will go on hold until local match construction funding can be identified.

I-80 AUXILIARY LANES (*Multi-year project*)

PURPOSE: To begin construction of the I-80 Auxiliary Lanes project. Caltrans pays for and provides staff support for pre-construction work through Expenditure Authorization 03-3F230.

BACKGROUND: The PCTPA Board in August 2013 re-allocated federal earmark savings from the I-80 Bottleneck project for environmental approval of the following improvements:

- I-80 Eastbound Auxiliary Lane between SR 65 and Rocklin Road
- I-80 Westbound 5th Lane between Douglas Blvd and Riverside Ave

Construction of the I-80 Auxiliary Lanes project will relieve existing traffic congestion and support future economic development in southern Placer County. The two locations ~~are being~~ have been combined as one project to be the most cost effective in completing the environmental documents and project designs.

A project initiation document (PID) was completed by Caltrans for each location in 2000 and 2012. PCTPA completed the Project Approval and Environmental Documents (PA&ED) phase in May 2014, and both state and federal environmental approval for the project was obtained in October 2016. Final design and right of way acquisition phases were initiated in February 2018. Construction funding was awarded by the CTC in December 2020. Construction is anticipated to occur in FY 2022/23.

The work for FY 2022/23 is expected to include preparation of project bid documents, advertisement, award and approval of contractor contract, start of construction, and implementation of mitigation requirements.

WORK PROGRAM:

- Work with SACOG, Caltrans, SPRTA, and jurisdictions to ensure inclusion of the I-80 Auxiliary Lanes in their planning efforts **Ongoing**

SR 49 SIDEWALK GAP CLOSURE (Multi-year project)

PURPOSE: To implement the Active Transportation Program Cycle 4 (2018) funded Highway 49 Sidewalk Gap Closure project. The project will construct 2.8 miles of sidewalks between gap on State Route 49 (SR 49) from I-80 to Dry Creek Road, including environmental clearances, design, and right of way support. Caltrans pays for and provides staff support through Expenditure Authorization 03-3H830.

BACKGROUND: The PCTPA Board in March 2017 allocated federal Congestion Mitigation and Air Quality funding to work cooperatively with the City of Auburn, County of Placer, and Caltrans to develop a standalone project to close gaps in the sidewalk network along SR 49 from I-80 to Dry Creek Road. Caltrans developed the SR 49 Roadway Rehabilitation project that proposes to repave the entire corridor, add Class II bicycle lanes, and sidewalks along certain segments of the corridor. A Project Report for the Roadway Rehabilitation project was approved March 2017. Unfortunately, sufficient funding was unavailable to provide continuous sidewalks along the corridor and Caltrans Roadway Rehabilitation project was too far along in the process to add the sidewalk gap closure components without significantly slowing their process.

The standalone Highway 49 Sidewalk Gap Closures project completed the necessary environmental clearance in December 2019. Continued effort to complete the design, and right of way phases will support construction of the project using a \$14.4 million Active Transportation Program (ATP) state grant.

During FY 2022/23, PCTPA and the consultant team will finalize the Plans Specifications & Estimates (PS&E), and complete the right-of-way engineering phases in preparation for Caltrans to prepare and release a bid package for construction in FY 2023/24.

The Placer Sacramento Mobility Action Plan (Action Plan) will build on the completion of the Placer Sacramento Gateway Plan, which includes collaboration between PCTPA, Sacramento Area Council of Governments (SACOG), Capital Corridor Joint Powers Authority (CCJPA), and Caltrans District 3. The Action Plan will identify a list of regional projects to pursue in a coordinated transportation funding effort, including outlining clear actions, assigning implementation roles, and establishing performance metrics. The Action Plan will include an approximately 45-mile corridor that starts on US 50 at Interstate 5 and extends along Business 80, Interstate 80 to Highway 49, and Highway 65 to Nelson Lane.

The Action Plan will utilize innovative community engagement, extensive multimodal simulation modeling, and continuous stakeholder coordination. The Action Plan will be used to compete for state and federal grant funding anticipated in winter 2022/23.

RIEGO ROAD/BASELINE ROAD WIDENING PROJECT *(Multi-year project)*

PURPOSE: Facilitate a proactive multi-jurisdictional approach between the Participating Agencies and PCTPA to address cumulative transportation impacts from pending and approved land development within the South Placer and Sutter region.

BACKGROUND: Beginning in January 2020, staff from the three Participating Agencies and PCTPA formed a Project Development Team (PDT) to initiate a Project Study Report (PSR) to scope Riego Road/Baseline Road improvements from SR 99 to Foothills Boulevard. In conjunction with the PDT, a Strategy Team was formed, consisting of corridor development interests. The PSR, approved in October 2020, indicated that Riego Road/Baseline Road needs to be widened and improved to support future planned and approved development, and to provide for a reliable and safe east-west connection to meet anticipated traffic demands in the South Placer and South Sutter region. The PSR process also established a high level project cost estimate and timeline for the project's environmental review process, the subsequent engineering and design phase, and a construction start date. Completion of the PSR allows the Participating Agencies and PCTPA to pursue local, state, and federal funding for environmental, design, right-of-way, and construction of the Riego Road/Baseline Road improvements.

At the conclusion of the PSR, the PDT recognized that it would be in their best interest to continue to work cooperatively to design, fund, finance, and determine the timing of construction of Riego Road/Baseline Road improvements located in their respective jurisdictions. The PDT also recognized that it would be in their best interest to work cooperatively to obtain State and federal transportation funding, and to develop a fair and equitable method to fund and finance costs of certain regional transportation improvements necessary to address cumulative traffic impacts within the South Placer and South Sutter region. These regional transportation improvements could include Riego Road/Baseline Road, State Route 99/70, Watt Avenue, and Placer/Sutter Parkway. The Participating Agencies executed a MOU, which authorized PCTPA to coordinate the efforts amongst the Participating Agencies to evaluate options and develop a regional transportation funding and financing plan for the South Placer and South Sutter region. Upon consensus on the plan by the PDT,

[Placer and Sutter counties entered into a mutual settlement agreement in June 2009 relating to the Placer Vineyard and Sutter Pointe Specific Plans. In this agreement, Placer and Sutter counties agreed to establish a program of credits and reimbursements consistent with fair share mitigation requirements for its out-of-jurisdiction traffic impacts, and its impacts on federal and State freeways and highways from the specific plans being developed within each respective County.](#)

[Beginning in January 2020, staff from the City of Roseville and Placer and Sutter counties and PCTPA formed a Project Development Team \(PDT\) to initiate a Project Study Report \(PSR\) to scope Riego Road/Baseline Road improvements from SR 99 to Foothills Boulevard. also recognized that it would be in their best interest to work cooperatively to obtain State and federal transportation funding, and to develop a fair and equitable method to fund and finance costs of certain regional transportation improvements necessary to address cumulative traffic impacts within the South Placer and South Sutter region. A result, a Memorandum of Understanding (MOU) executed in October 2020 between the four agencies that directed PCTPA to facilitate a mutually agreed upon scope and structure for a regional transportation funding and financing plan.

PCTPA will develop an RFP for any needed consultant services, schedule, and cost estimate to prepare ~~an~~ a fair share analysis and reports in support of the plan, and to permit consideration of the ~~plan~~ fair share analysis by the Participating Agencies' elected bodies.

WORK ELEMENT 50

PROJECT PROGRAMMING AND REPORTING

PURPOSE: To maximize the funding available to priority transportation projects and programs through accurate and efficient programming of Federal and State transportation dollars, ensure timely delivery, and report the success of those efforts.

BACKGROUND: PCTPA develops and programs transportation projects that are funded with State and Federal funds. PCTPA staff coordinates with Caltrans, SACOG, and other agencies, as indicated, regarding the various funding programs. Staff also coordinates with local jurisdictions to develop needed projects to meet specific program guidelines.

Following the passage of SB 862 in 2014, PCTPA determines the allocation of Low Carbon Transit Operations Program (LCTOP) funding to the region's eligible transit and transportation projects. LCTOP funding is continuously appropriated from the annual auction proceeds in the State's Greenhouse Gas Reduction Fund to help the State achieve its climate goals.

The passage of SB 1 in the Spring of 2017 brought significant new revenues into play, with critical administrative roles for Regional Transportation Planning Agencies (RTPAs). The package of ten different funding programs includes a few that are distributed by formula, with most distributed on a competitive basis. PCTPA works with member jurisdictions and other regional agencies to ensure timely use of formula SB1 funds, and to identify projects and develop applications for competitive SB1 funds. These programs include regular reporting to Caltrans and the California Transportation Commission (CTC) that PCTPA and its member jurisdictions must comply with.

Another major transportation funding program that PCTPA programs, under the requirements of our designation as Placer's Regional Transportation Planning Agency (RTPA), is the Regional Transportation Improvement Program (RTIP). PCTPA determines how to program the RTIP funds allocated to the county, known as Regional Choice funds. PCTPA also advocates for the allocation of Caltrans' ITIP funds for shared priorities on state highways, including SR 65, SR 49, and I-80. While in recent years, with the advance of Placer's share of RTIP funds for the SR 65 Lincoln Bypass, as well as the fluctuations that result in a diminishing effectiveness of the gas tax revenues that fund the STIP, this is becoming a much smaller portion of PCTPA's funding efforts. However, with the passage of SB 1, it appears the RTIP debt may be paid off sooner, likely bringing this funding source back into play in the 2028 STIP Cycle.

Federal funding is equally volatile. Over the past decade, the shrinking cost effectiveness of the Federal gas tax has required more state and local funding to make ends meet. A very positive boost to Federal funding levels occurred in November 2021, with the passage of the Infrastructure Investment and Jobs Act (IIJA). IIJA effectively replaces the FAST Act and provides a new, five-year authorization of surface transportation funding for highways, transit, and rail programs with an approximately 56% increase in this funding source alone compared to the previous FAST Act legislation. Overall, IIJA introduces \$550 billion of new funding opportunities above the current baseline Federal funding programs, with significant funding increases targeted to new competitive grant programs. Staff will continue to monitor changes to

WORK ELEMENT 50 (continued)
PROJECT PROGRAMMING AND REPORTING

existing, and the introduction of new, funding programs in the IJJA, and will be coordinating with PCTPA’s member jurisdictions to continue to obtain and maintain the maximum amount of transportation funding for our local and regional transportation priorities, including transit improvements, Highway 65 widening, the I-80/SR 65 Interchange, SR 49 Sidewalk Gap Closures, Placer Parkway, rail capacity improvements, and various I-80 improvements. Not only do these projects enhance mobility for residents, they also enhance and expand efficient local, regional, and – in the case of I-80 and rail, national goods movement.

PCTPA also programs projects for Federal programs such as the Congestion Mitigation and Air Quality (CMAQ) and Surface Transportation Block Grant (STBG) programs, the Federal Transit Administration (FTA) Section 5311, as well as coordinating applications for State and regional programs like the Active Transportation Program (ATP) and FTA Section 5310 program administered by SACOG (urban) and the State (rural).

All regionally significant transportation projects, as well as any which receive federal funding, must be included in the Metropolitan Transportation Improvement Program (MTIP) to allow projects to move forward. PCTPA works closely with SACOG and our jurisdictions to ensure data included in the MTIP is current and accurate. In addition, SACOG provides air quality conformity determinations on the MTIP to comply with Federal clean air requirements.

Under AB 1012, agencies are also held responsible for ensuring State and Federal funding is spent promptly and projects delivered within specified time limits. This requirement is backed up by “use it or lose it” timely use of funds deadlines. Some of the major projects subject to these provisions are those receiving funding through the (STBG) -and CMAQ programs.

Over and above these requirements, PCTPA has a long standing commitment to ensuring that every transportation dollar is used as quickly, efficiently, and effectively as is possible. PCTPA staff will continuously monitor the progress of projects funded through State and Federal sources and ensure that they meet scope, schedule, and budget.

WORK ELEMENT 61 REGIONAL TRANSPORTATION FUNDING PROGRAM

PURPOSE: To educate the public on the need for critical regional transportation projects in Placer County.

BACKGROUND: For a number of years, the needs for large scale regional transportation projects far outstrip the county's available transportation funding. Concern has centered on not only the shortfalls, but the timing to fund major projects identified in the Regional Transportation Plan (RTP) such as the Placer Parkway, Highway 65 Widening, the I-80/SR 65 Interchange, intercity rail, transit services, road rehabilitation and maintenance, and pedestrian and bicycle facilities.

While the regional traffic impact fee has now been adopted, increasing travel demand juxtaposed with the state and federal government contributing less towards major freeway and highway projects have continued the gap between transportation needs and funding availability. Unfortunately, the disparity between critical transportation needs and funding opportunities, and the integral ties to the economic vitality of Placer County has not changed. Meanwhile, the very legitimate public concerns about traffic congestion and pavement conditions are getting even worse.

Covid-19 variants in Fiscal Year 2021-2022 presented a major challenge to our work program. Support for the need for a funding mechanism remains steady but has not returned to 2019 levels of support near the 2/3 needed for a special tax. Our charge is to regroup and redouble our efforts to provide the public with more information about the planning and funding challenges involved in addressing our critical transportation needs. Enhanced and creative efforts to provide that kind of outreach and information is a key to the success of our Regional Transportation Funding Program efforts moving forward.

WORK PROGRAM:

- Continue to monitor traffic volumes, monitor economic conditions, and update/refine the Regional Transportation Funding Outreach Program, including opportunities, needs, and constraints for post-COVID-19 return of traffic congestion estimated approximately June 2022 **July 2022 – June 2023**
- Develop and provide informational materials and fact sheets on transportation needs and funding to interested parties, including community and business groups, and the general public. **Ongoing**
- Continue to identify opportunities to leverage state and federal dollars to enhance local transportation funding efforts **Ongoing**
- Investigate opportunities for innovative funding, such as bonding and public-private partnership for specialized transit services, Placer Parkway, I-80 improvements, and other potential candidate projects **Ongoing**

WORK ELEMENT 80 FREEWAY SERVICE PATROL (FSP)

PURPOSE: To facilitate implementation of a Freeway Service Patrol (FSP) on I-80 and SR 65 in South Placer County.

BACKGROUND: The purpose of the program is to keep traffic moving by removing traffic impediments, such as cars with mechanical problems or that have been involved in accidents, as well as assisting the motoring public. The program provides a tow truck with a qualified technician patrolling the target area. The service began in 2003 through a Placer County Air Pollution Control District (APCD)'s AB 2766 funds to implement a Freeway Service Patrol in the congested areas of I-80 in the South Placer County area. In 2005 PCTPA became eligible to receive funding under the State's FSP program. Since then, the program has been expanded with increased service hours to cover I-80 from Roseville to Auburn and SR 65 from I-80 to Twelve Bridges Dr.

Juxtaposed with this need is funding availability. FSP is subject to annual State budget allocations and formulas, as well as annual grants, and the available funding varies. Staff works closely with the CHP and the contractor to tweak the program, including service hours, days, and costs, to balance with available funding.

SOUTH PLACER REGIONAL TRANSPORTATION AUTHORITY (SPRTA)

ADMINISTRATION

PURPOSE: To provide staffing and administrative support for the South Placer Regional Transportation Authority.

BACKGROUND: PCTPA adopted a Regional Transportation Funding Strategy in August 2000 which included the development of a regional transportation impact fee program. PCTPA staff worked with the jurisdictions of South Placer County, as well as the development community, environmentalists, and community groups to develop a program and mechanism to implement this impact fee. The SPRTA, formed in January 2002, is the result of those efforts.

Under the Joint Powers Agreement that formed SPRTA, PCTPA is designated as the entity to provide administrative, accounting, and staffing support for the Authority. PCTPA is to be reimbursed for those staffing costs, as well as repaid for previous expenditures used to form the JPA and develop the fee program.

PCTPA and SPRTA members ~~approved~~ continue to develop a comprehensive travel demand forecasting model (TDF) and Tier I and II Regional Impact Fee update in FY2022/23 ~~in June 2022~~. ~~With~~ When this major milestone is successfully completed, staff will enter a maintenance mode of assisting member agencies with the implementation of the TDF model and fee program. Staff has retained an on-call contract with a consultant to assist with technical questions.
